

ASPIC 2012 “7th ASIAN SYMPOSIUM on POLYMERS in CONCRETE”

ISTANBUL-TURKEY, 3-5 October 2012

Organized by

ISTANBUL TECHNICAL UNIVERSITY

Faculty of Civil Engineering

Co-sponsored by

WELCOME

ASPIC 2012, the 7th ASPIC Symposium will be held in Istanbul, the city where two continents meet. The history of Istanbul, the capital of East Roman, Byzantine and Ottoman Empires, goes back to 8500 years after the recent findings obtained during the deepest submerged tube tunnel construction connecting the Asian and European sides of the Bosphorus.

ASPIC symposiums have become the continuation of the ICPIIC Conferences. After the 6th ASPIC in Shanghai in 2009 and 13th ICPIIC in Madeira Islands, 7th ASPIC will be organized by Istanbul Technical University between the 3rd and the 5th of October 2012 in Istanbul, Turkey.

ASPIC 2012 will attract researchers from not only Asian Countries but also Middle-east, South-east and South Europe, North Africa and all over the World...

Not only research people but also civil engineers and architects, product manufacturers, ready-mixed concrete producers and civil engineering contractors can find interesting subjects in the symposium.

The keynote addresses will be delivered by the well known science people from all over the World. All aspects of polymers in concrete will be discussed during the symposium including the innovative studies as well as past successful experiences.

On behalf of Organizing Committee it is a great pleasure for us to welcome you to the ASPIC 2012 Symposium.

Prof. M. Hulusi Ozkul

Chairman

On behalf of the Organizing Committee

IMPORTANT DATES

January 1, 2012	Deadline for abstract submission
February 1, 2012	Acceptance notification of abstracts
May 1, 2012	Deadline submission of draft papers
June 15, 2012	Acceptance notification of draft papers
July 15, 2012	Deadline submission of final papers
October 3-5, 2012	Symposium

THEMES

- Design of Concrete-Polymer Composites
- Microstructure of Polymer Concrete Composites
- Properties of Polymer Concrete Composites
- Test Methods for Concrete-Polymer Composites
- Production Techniques and Material Selection of Concrete-Polymer Composites
- Concrete-Polymer Composites for Repairing / Rehabilitation of Concrete Structures
- Fiber Reinforced Concrete-Polymer Composites
- Durability Properties of Concrete-Polymer Composites
- Recent Developments in Theory and Practice of Concrete-Polymer Composites

ABSTRACT SUBMISSION

Please send your abstract by the following e-mail or submit it through the Symposium Web-Site (<http://aspic2012.itu.edu.tr>):
