I am pleased to inform you that the Council Committee for Laboratory Accreditation (CCLA) has awarded the accreditation of your facility to ISO/IEC 17043:2010 for specific scope under the SAC Certificate of Accreditation No. PTP-2015-002.

CCLA has approved the accreditation for the provision of proficiency testing programmes in the Sieve Analysis for Fine Aggregates. The draft schedule, PTP-2015-002, Issue 1 dated 28 January 2015 is attached for your reference.

As your facility is granted accreditation based on the assessment conducted during the pilot period, we will require you to undertake a review of your facility's compliance with the technical note PTP-001: May 2014, *Requirements for the Application of ISO/IEC 17043* and submit the review to the SAC Secretariat by 28 February 2015. Your facility's compliance with ISO/IEC 17043 and PTP-001:2014 will be assessed in the next surveillance visit.

The SAC Certificate PTP-2015-002 is valid for four years from 28 January 2015 to 27 January 2019 and can be renewed upon expiry. The annual fee is SGD 1,500.00 (before GST) per certificate and is payable at the beginning of every twelve-month period.

During the four years, regular assessments of your facility will be conducted to ascertain that it continues to comply with the requirements of the SAC Proficiency Testing Providers scheme. A fee will be charged for each assessment. The fee will be based on the prevailing rates as published in the Fee Schedule, PTP-002.
